REPORT OF SUBCOMMITTEE OF THE COMMITTEE ON FINANCE AND TAXATION APPOINTED TO CONFER WITH THE GOVERNOR FOR THE PURPOSE OF OBTAINING HIS VIEWS AND RECOMMENDATIONS AS TO A PROGRAM FOR FINANCING SOCIAL SECURITIES.

To Honorable John R. Beacham,
President of the Senate.

Sir:

A subcommittee consisting of Senators Horne, Butler, Lewis, Smith and Kanner was appointed by the Committee on Finance and Taxation to confer with the Governor of the State of Florida for the purpose of securing from him his views and recommendations as to a program for financing old age assistance, aid to the blind and for aid to dependent children for the next biennial.

This subcommittee met with the Governor in his office in the Capitol Thursday, May 29, 1941, at approximately 4:00 o'clock in the afternoon and advised the Governor of the mission of the committee.

A report of the proceedings that occurred in the conference with the Governor is hereinafter set forth.

The subcommittee verbally reported to the committee the proceedings that occurred in the conference with the Governor.

The main committee then authorized Senator J. Turner Butler, one of the members of the subcommittee to report for and on behalf of the Committee on Finance and Taxation to the Senate the proceedings occurring at the conference.

In pursuance of the directions of the Committee on Finance and Taxation, I beg to report that the proceedings at the conference between the Governor and the subcommittee on Finance and Taxation were substantially as follows:

The Governor was advised as to the pending amendments to the House Appropriations Bill in the Senate and the nature of the arguments that had been advanced in the Senate on both sides of the pending questions.

The Governor advised that there will be derived from taxes earmarked for old age assistance and for aid to the blind and to the dependent children, the following sums per annum:

Beverage tax, \$3,400,000.00 for old age assistance and aid to the blind and \$400,000.00 to dependent children.

From the added horse race track taxes passed by this Legislature for old age assistance, \$2,200,000.00.

Pending measure by Senator Cooley for increased aid to dependent children called for \$500,000.00 appropriation, for which new tax on private use of trucks and trailers would be earmarked and the balance, if any, payable out of the general revenue fund.

Pending increased gallonage tax on wine for increased aid to dependent children, \$200,000.00.

Of the foregoing items, the beverage tax and the tax on

horse tracks have already been enacted into law and were earmarked for the purposes above named. The other measures are pending and have been passed by the Senate as earmarked with the possible exception that it may require \$75,000.00 of general revenue in addition to the new truck tax to make good the total appropriation of \$500,000.00.

The Governor further stated that the total sum that will be derived from earmarked funds under existing law with pending measures for the above mentioned purposes will be approximately \$6,700,000.00 per annum, which will be approximately \$2,900,000.00 more per annum than was provided for the above purposes during the current biennium. In addition, the Governor pointed out that there is now available in cash for the program for aid to dependent children the sum of approximately \$500,000.00.

The Governor indicated that he considered it unwise to enact into law the bills now pending in the Senate to divert from the schools the money now payable under existing law to the schools from the beverage tax, as to the funds from this source are an essential part of the funds required to make good on the instruction unit appropriation for schools. He called attention to the fact that in this year as in previous years, the schools have had the benefit of the one mill ad valorem school tax, amounting to over \$300,000.00, which would be lost in each year of the approaching biennium. He likewise called attention to the fact that even with said one mill ad valorem school tax and with a participation of between \$300,000.00 and \$400,000.00 last year from the beverage tax, the instruction unit appropriation was not made good by the end of the fiscal year on July 1, 1940, but that collections on the chain store tax received in July and August had been applied to make up the deficit in the school appropriation.

He said that he felt it would be unsafe to break into the beverage tax in any way by reason of the facts just stated, unless it was proposed to jeopardize making good on the instruction unit appropriations for schools. The Governor further advised that any appropriation in excess of the earmarked funds of \$6,700,000.00 for the above enumerated social security obligations would further unbalance the budget.

He recalled that in his tax measures he had already advised that the general revenue budget was unbalanced, even without such additions. The Governor further stated that in his opinion, any provision seeking to place the appropriation for social security purposes on a parity with governmental expenses would be doubtful as to its constitutionality and would in all probability result in litigation.

The Governor stated that he felt that the Legislature had already done a very fine service in more than doubling the aid for dependent children (providing the present measures are passed) and in substantially increasing the appropriation for assistance to the aged and blind, and said if further aid was to be given, he certainly hoped that same would be confined to earmarked appropriations, which would not further burden the already over-burdened general revenue fund.

Upon being asked by this subcommittee as to his present attitude towards the financing of State activities during the next biennium, the Governor advised that he still felt that the measures recommended in his taxation message would allow a prudent and economical operation of the functions of State government on a somewhat sounder and better financing basis than had been possible in the last biennium, due to replacement of the lost gross receipts tax, substitution of lost State and ad valorem taxes, and the Murphy Act measure, and he particularly observed that the 3% take from special funds would be available from month to month throughout the year in a much more regular way than revenue had been furnished during the present biennium. He stated that while the effects of a possible war and of heavy added Federal taxes could not be accurately foreseen, it would seem reasonable to expect continued increase in beverage taxes, gasoline taxes, and the other sources resulting from added military and naval population during the period of emergency. He reiterated his feeling as expressed in his tax message. He further called attention to the critical conditions and particularly anticipated new Federal taxes.

Upon being asked by this subcommittee as to his attitude on the suggested transaction or gross receipts tax of 2%, the Governor stated that he was committed against any such tax, which he regarded as nothing more nor less than a general consumer's sales tax.

The Governor expressed his very cordial appreciation of the interest of the subcommittee, and of the whole commit-

tee, and of the Senate, and advised that he would be glad to assist in any way whatsoever in working out the problem as it advanced.

Respectfully submitted,

J. TURNER BUTLER,

As Chairman of Subcommittee on
Finance and Taxation.

Senator Drummond moved that House Bill No. 847, pending roll call, having been read the third time in full, be referred to the Committee on Rules and Calendar.

Which was agreed to and it was so ordered.

SECTION 2. All moneys received by the institutions un-
der the management of the State Board of Control and the
Board of Commissioners of State Institutions other than
from State or Federal sources, are hereby appropriated to
the use of the State Board of Control and the Board of Com-
missioners of State Institutions, for the respective Institu-
tions collecting same, to be expended as said Boards may
direct and said moneys shall not be deducted from the
sums otherwise appropriated by this Act to said Institutions.

SECTION 3. The State Board of Control is hereby em-
powered to fix and collect fees for materials, correspondence
study and extension teaching and expenses incident thereto,
through the General Extension Department; and it is expressly
provided that all such fees so collected by the said Board
of Control shall not affect the State Appropriation or be
deducted therefrom, and they shall be used only for the pur-
poses for which they are collected, and said fees shall be
deposited for accounting, with the Comptroller of the State
of Florida, who upon the order of said Board of Control, shall
draw his warrant or warrants on the State Treasurer in
payment for the said materials, correspondence, study, and
extension teaching and expenses incident thereto. In its Bi-
ennial report the Board of Control shall make report in detail
of the expenditure of said funds, together with a report of
the work done.

SECTION 4. Any sum or sums appropriated for salaries,
if not required for such purposes, may be applied to other
necessary and regular expense of the department to which
they are appropriated, but in no event shall any sum or sums
specifically appropriated for expenses be applied to salaries,
except, that day labor shall be construed as coming within
Necessary and Regular Expenses. Any sum paid out under
this Act or any other Act from the monies appropriated

herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasurer, payable to the ultimate beneficiary; provided that this requirement shall not apply to any funds appropriated for the State Board of Control or to funds appropriated for institutions under control or management of the State Board of Control.

SECTION 5. That any moneys appropriated by this Act for a designated period which, at the end of such period, remain unexpended nor not contracted to be expended, the said unexpended balance may be used for like purposes in the second year of the biennium, but whatever balance remains unexpended or not contracted to be expended at the end of the biennium, the same shall revert to the fund from which appropriated; provided further that any unexpended surplus money remaining to the credit of any Board of Commission from the moneys appropriated herein as shown by the records of the Comptroller, at the end of each biennium, may, upon recommendation of the Comptroller, with the approval of the Governor, be transferred to the General Revenue Fund; provided, however, that no funds appropriated for use by the State Board of Control, or for Institutions under the control or management of the State Board of Control, shall be transferred to the General Revenue Fund or in anywise be affected by the preceding proviso.

SECTION 6. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with moneys appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

SECTION 7. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items of appropriation contained in this Act.

SECTION 8. In order to avail themselves of the appropriated items in this Act, it shall be necessary at the usual time and in the usual manner, or when required by the Budget Commission, to present to the Budget Commission an itemized statement of their expenditures making up the total of the appropriations herein provided for, and for additional appropriations or less appropriations to make up such schedules as are necessary to advise the Budget Commission of the sum total of amount for salaries and for necessary and regular expenses to be included in appropriations allowed.

SECTION 9. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for he shall so certify to the Budget Commission, and the Budget Commission shall adjust and reduce the Budget of any Department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and reduce the budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State Government, and that the revenues available, shall be used in the most efficient and economical manner. Provided, however, that this Section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

SECTION 10. The Board of Control shall determine the length of the School Term of all Educational Institutions for which funds are appropriated herein.

SECTION 11. Where appropriations appear in this Act for "Building and Improvement Schedule," such appropriations are made contingent upon funds being available for the construction of such buildings without decreasing any appropriation for salaries or necessary and regular expense; and provided further that if any of the buildings mentioned in this Act are provided for in any other Act of the Legislature of 1941, then the appropriations for such buildings mentioned herein shall be null and void. Where the salary of any officer or employee of the State has not been changed by any Act out of the Legislature of 1941, the appropriation for salaries re-

specting such officers or employees shall control the salary or compensation to be paid such officer or employee.

SECTION 12. None of the appropriations for the General Revenue Fund provided for herein shall be available to any department of the State Government unless and until the Budget Commission full and complete statement of all anticipated revenues, receipts and expenditures in detail, reasonable to be expected by such departments covering the annual period beginning July 1st, 1941, and July 1st, 1942. Said statement or budget shall include the amount which said department anticipates it will receive from all sources, including the appropriation from General Revenue made hereunder, as well as all other revenues received from any source whatsoever. Said statement of expenditures shall include all expenditure anticipated to be made, giving details as to the number of employees, amount to be paid employees, and itemized estimate of money to be spent for expenses and maintenance of each department. Said statement or budget shall be filed with the State Budget Commission and approved by it prior to July 1st, of the fiscal year for which the appropriation is made, and in the event the said budget shows said estimate of expenditures will be less than the estimate of revenues, the appropriations contained herein shall be diminished for that fiscal year by the amount shown in such budget as an anticipated surplus.

SECTION 12A. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

SECTION 13. All laws or parts of laws in conflict herewith are hereby repealed.

SECTION 14. This Act shall take effect on July 1, 1941.

The following explanation of vote was filed with the Secretary:

EXPLANATION OF VOTE

We vote 'nay' on this amendment because it is an empty gesture. The Senate has passed measures raising revenue for old age assistance, aid to dependent children, and aid to the blind of more than \$7,000,000. These funds are earmarked and must be used for these purposes. We have supported all of these measures. Putting this amendment in the General appropriations bill will not supply the funds to pay the same. Its validity is certainly doubtful and if adopted litigation may result in tying up funds which would otherwise be available. It may also offer an excuse not to vote for measures to actually provide more additional funds for these services. We are not looking for any such excuse. The Legislature should meet this problem squarely and not fool the aged by such a gesture.

SECTION 2. All moneys received by the institutions under the management of the State Board of Control and the Board of Commissioners of State Institutions other than from State or Federal sources, are hereby appropriated to the use of the State Board of Control and the Board of Commissioners of State Institutions, for the respective Institutions collecting same, to be expended as said Boards may direct and said moneys shall not be deducted from the sums otherwise appropriated by this Act to said Institutions.

SECTION 3. The State Board of Control is hereby empowered to fix and collect fees for materials, correspondence study and extension teaching and expenses incident thereto, through the General Extension Department; and it is expressly

provided that all such fees so collected by the said Board of Control shall not affect the State Appropriation or be deducted therefrom, and they shall be used only for the purposes for which they are collected, and said fees shall be deposited for accounting, with the Comptroller of the State of Florida, who upon the order of said Board of Control, shall draw his warrant or warrants on the State Treasurer in payment for the said materials, correspondence, study, and extension teaching and expenses incident thereto. In its Biennial report the Board of Control shall make report in detail of the expenditure of said funds, together with a report of the work done.

SECTION 4. Any sum or sums appropriated for salaries, if not required for such purposes, may be applied to other necessary and regular expense of the department to which they are appropriated, but in no event shall any sum or sums specifically appropriated for expenses be applied to salaries, except, that day labor shall be construed as coming within Necessary and Regular Expenses. Any sum paid out under this Act or any other Act from the monies appropriated herein shall be by State Warrant drawn by the Comptroller and countersigned by the Governor upon the State Treasurer, payable to the ultimate beneficiary; provided that this requirement shall not apply to any funds appropriated for the State Board of Control or to funds appropriated for institutions under control or management of the State Board of Control.

SECTION 5. That any moneys appropriated by this Act for a designated period which, at the end of such period, remain unexpended nor not contracted to be expended, the said unexpended balance may be used for like purposes in the second year of the biennium, but whatever balance remains unexpended or not contracted to be expended at the end of the biennium, the same shall revert to the fund from which appropriated; provided further that any unexpended surplus money remaining to the credit of any Board of Commission from the moneys appropriated herein as shown by the records of the Comptroller, at the end of each biennium, may, upon recommendation of the Comptroller, with the approval of the Governor, be transferred to the General Revenue Fund; provided, however, that no funds appropriated for use by the State Board of Control, or for Institutions under the control or management of the State Board of Control, shall be transferred to the General Revenue Fund or in anywise be affected by the preceding proviso.

SECTION 6. Federal money appropriated by the Congress of the United States to be used for State purposes, whether by itself or in conjunction with moneys appropriated by the Legislature of the State, is hereby re-appropriated as far as it may be necessary to the purpose for which same was made available and insofar as the same is permitted by the Federal Statutes.

SECTION 7. Any Section of this Act, or any special item of appropriation herein contained, if found to be invalid or vetoed by the Governor without over-riding action of the Legislature, shall in no way affect other sections or other items of appropriation contained in this Act.

SECTION 8. In order to avail themselves of the appropriated items in this Act, it shall be necessary at the usual time and in the usual manner, or when required by the Budget Commission, to present to the Budget Commission an itemized statement of their expenditures making up the total of the appropriations herein provided for, and for additional appropriations or less appropriations to make up such schedules as are necessary to advise the Budget Commission of the sum total of amount for salaries and for necessary and regular expenses to be included in appropriations allowed.

SECTION 9. All appropriations provided for by this Act are maximum appropriations, based upon the collection of sufficient revenue to meet and provide for such appropriations. If, in the opinion of the Governor, the revenues to be collected will be insufficient to meet the appropriations herein provided for, he shall so certify to the Budget Commission, and the Budget Commission shall adjust and reduce the Budget of any Department or Board by the consolidation of positions or duties to the end that efficiency and economy may result therefrom, and the appropriations kept within the revenues of the State. In the event the Budget Commission shall fail to adjust and reduce the budgets of the several Departments after the Governor has certified that the anticipated revenue will not permit of the maximum appropriation herein made, the Governor is hereby vested with power and authority to effect such changes by executive order, it being the intent and purpose of this Section to prevent any deficit in any Department of the State

Government, and that the revenues available, shall be used in the most efficient and economical manner. Provided, however, that this Section shall not be construed to mean that the Governor or the Budget Commission has the power to eliminate any Department of Government.

SECTION 10. The Board of Control shall determine the length of the School Term of all Educational Institutions for which funds are appropriated herein.

SECTION 11. Where appropriations appear in this Act for "Building and Improvement Schedule," such appropriations are made contingent upon funds being available for the construction of such buildings without decreasing any appropriation for salaries or necessary and regular expense; and provided further that if any of the buildings mentioned in this Act are provided for in any other Act of the Legislature of 1941, then the appropriations for such buildings mentioned herein shall be null and void. Where the salary of any officer or employee of the State has not been changed by any Act out of the Legislature of 1941, the appropriation for salaries respecting such officers or employees shall control the salary or compensation to be paid such officer or employee.

SECTION 12. None of the appropriations for the General Revenue Fund provided for herein shall be available to any department of the State Government unless and until the head of such department shall prepare and file with the said Budget Commission full and complete statement of all anticipated revenues, receipts and expenditures in detail, reasonably to be expected by such departments covering the annual periods beginning July 1st, 1941, and July 1st, 1942. Said statement or budget shall include the amount which said department anticipates it will receive from all sources, including the appropriation from General Revenue made hereunder, as well as all other revenues received from any source whatsoever, and said statement of expenditures shall include all expenditures anticipated to be made, giving details as to the number of employees, amount to be paid employees, and itemized estimate of money to be spent for expenses and maintenance of each department. Said statement or budget shall be filed with the State Budget Commission and approved by it prior to July 1st, of the fiscal year for which the appropriation is made, and in the event the said budget shows said estimate of expenditures will be less than the estimate of revenues, the appropriations contained herein shall be diminished for that fiscal year by the amount shown in such budget as an anticipated surplus.

SECTION 12A. The State Board of Control, and the Board of Commissioners of State Institutions, are hereby authorized subject to the approval of the Budget Commission, to purchase automobiles, trucks, tractors and other automotive equipment, for the use of institutions under the management of said Board of Control and said Board of Commissioners of State Institutions.

SECTION 13. All laws or parts of laws in conflict herewith are hereby repealed.
